

RUSU Drug Testing Kits Policy

The Union to sell Drug testing kits at a discount rate. Some students take drugs. We should be educating our students on safe drug use, not stigmatising it.

RUSU should sell drug testing kits that students can have access to.

This will ensure students know exactly what they are putting into their bodies.

The Union should also maintain students' privacy by not recording personal details of students who buy drug testing kits.

Policy expires: March 2019
